

Subsidies for private companies and entrepreneurs - Incentive for the purchase of electric cars

General info

Economy name

Bosnia and Herzegovina

ID

B11

Incentive name

Subsidies for private companies and entrepreneurs - Incentive for the purchase of electric cars

Brief description

This incentive aims to promote the adoption of electric cars in the Federation of Bosnia and Herzegovina by offering subsidies to private companies and entrepreneurs for the purchase of new vehicles meeting specific criteria, including having electric drive (10.000 KM) exclusively, utilizing two energy sources (electric motor and internal combustion engine) for plug-in hybrids (7.000 KM), and incorporating both internal combustion engine and electric motor for full hybrids (5.000 KM).

Eligibility criteria

Eligibility criteria (description)

The subsidy beneficiary can be a private company or entrepreneur based in the Federation of Bosnia and Herzegovina, who complies with documentation requirements outlined in the Public Invitation, meets conditions set forth in the Public Call at the time of application, and when funds are available in the budget for subsidizing vehicle purchases, provided applications have not been assigned to other users. A private enterprise, under this Program, refers to a business entity established according to the Act on Economic Companies ("Official Gazette of the Federation of Bosnia and Herzegovina", no: 81/15 and 75/21), not predominantly owned by the Federation of Bosnia and Herzegovina or any government level within the federation. An entrepreneur, under this Program, is a tradesman or self-employed individual registered in compliance with the Law on Trades and Related Activities in the Federation of Bosnia and Herzegovina ("Official Gazette of the Federation of Bosnia and Herzegovina", number T51/21) and relevant regulations at the federation and/or cantonal levels governing independent activities within the region.
